

extreme STEAM summer camp

Drones, LEGOs, Coding!

Looking for something both fun and educational this summer? We've got you covered!

- Weekly STEAM adventures
- Academic programs
- NFL Play 60

ACADEMIC PROGRAMS

Let our camp help ensure your child is ready for school in the fall!

BOOST Math & English

NEW!

This past year has been a little different, which is why we created our new BOOST program. Students have missed months of in-person classroom instruction, and many families are concerned their children have fallen behind. This exclusive program is designed to help ensure your child meets grade-level expectations in math, reading and writing, and is ready for school this fall!

WEEKLY STEAM PROJECTS

Each week of Extreme STEAM is packed with fun, imaginative projects and field trips.* STEAM projects are hands-on and open-ended. Here's a sampling!

LEGOS

Campers investigate characteristics to help make buildings resistant to earthquakes, using an earthquake simulator constructed from LEGOs!

SAVE THE MOUNTAIN

Campers solve real-world problems when they use their ingenuity to build a structure to stop mountain erosion.

DRONES

Your child will explore the science behind drones, how they're used to solve real-world problems, and learn remote sensing and flight control.

CATAPULT

In this engineering and physics challenge, your child will launch candy pumpkins to pom poms when they create their own catapult.

Other projects include:

- DNA Testing
- Journey through Minecraft with Code
- Make an Amusement Park Ride
- Build a Better Bear

Let's get moving! Children need to work out energy, especially during these changing times. NFL Play 60 shows your child how to be active 60 minutes a day with fun, outdoor games. Activities will be non-contact, and in line with CDC recommendations.

Field Trips* & Special Experiences

If field trips are possible, our school will follow all CDC, state, and local guidance. If external field trips are not recommended, we'll bring field trips to our school!

Junior Camp

For younger children, we offer Junior Camp. Junior Camp does not include off-site field trips due to state transportation restrictions.

Tuition and Registration

Tuition varies by location, so please contact your school for pricing.

Tour Our School!

In-person and virtual tours available! Contact us to schedule a tour or to register today.

Camp Designed for Your Family

- Interesting, hands-on experiences
- Get your child ready for a new school year
- Welcome social time; take a break from devices
- Fresh, healthy meals and snacks included
- Industry-leading health & safety standards

*Foundations will follow all CDC, state and local guidelines pertaining to field trips and activities. Field trip plans are subject to change based on the most up-to-date guidance.

Weeks and themes vary by your child's grade level and school. See your Director for your school's activities.

Camp has reduced spaces available this year. Register today to secure your child's spot. Contact your school to get started.

Committed to Health & Safety

All schools are observing industry-leading COVID-19 health & safety standards, including requiring face coverings, daily temperature checks and health screenings, limited classroom access, enhanced sanitizing and more. Find out more at sunshinehouse.com/health.

About Foundations Early Learning Center:

Our mission is to enrich children's lives through meaningful, innovative early learning experiences. Our programs for children 6 weeks – 12 years old focus on school readiness, socialization, literacy, creativity, self-esteem, and problem-solving, and help support the academic and social needs of children.
